Plans and Projects

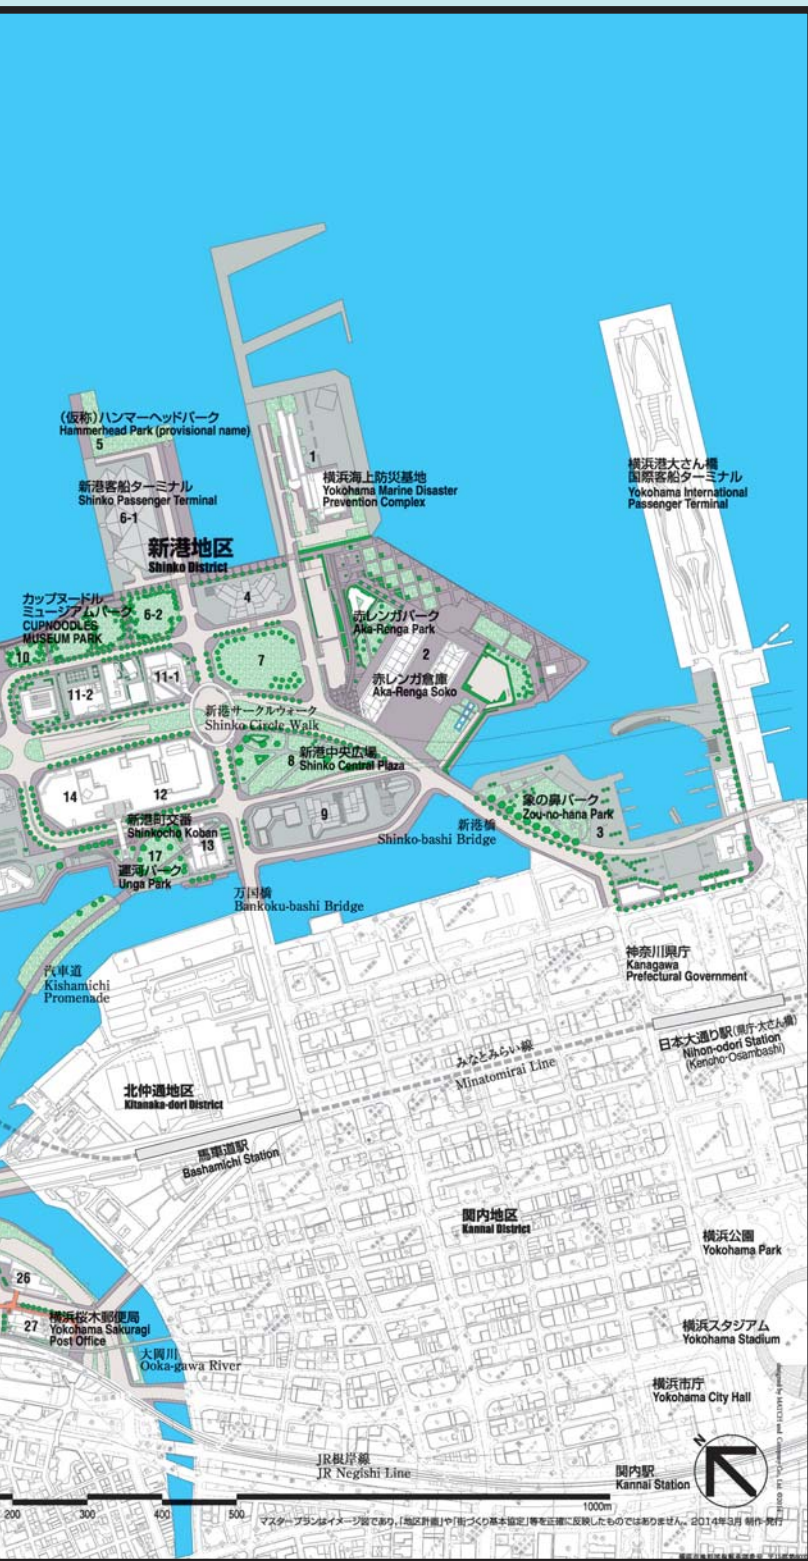

vol. **85**
2014

Minato Mirai 21 Master Plan

This master plan shows images of component districts and does not necessarily reflect the details of the district plan, the Basic Agreement on Town Development, etc.

CONTENTS

3 Yokohama - A City in the Vanguard of Every Era

5 Planning Principles and Urban Development Approach

7 INFRASTRUCTURE

- 7 ♦ Land Reclamation ♦ Land Readjustment
- ♦ Port Facility Improvement
- 8 ♦ Utility Tunnels ♦ District Heating & Cooling System
- ♦ Earthquake-Resistant Domestic Berth
- ♦ Emergency Underground Water Tanks

9 TRANSPORTATION

- 9 ♦ Roads and Railways ♦ Buses and Water Traffic
- 10 ♦ Arterial Roads ♦ Pedestrian Network
- ♦ Linking Minato Mirai 21 to Neighboring Districts

11 PARKS & GREENERY

- 11 ♦ Aka-Renga Park (Block 2)
- ♦ Zou-no-hana Park (Block 3)
- ♦ Shinko Central Plaza (Block 8)
- ♦ CUPNOODLES MUSEUM PARK (Block 10)
- ♦ Kishamichi Promenade / Unga Park / Promenade (Block 17, etc.)
- ♦ Rinko Park (Block 19)
- ♦ Nippon-maru Memorial Park (Block 23)
- ♦ Grand Mall Park (Block 35, etc.)
- ♦ Takashima-Chuo Park (Block 51)
- ♦ Takashima Suisaisen Park / Waterside Promenade (Block 64, etc.)

12 DISTRICT DEVELOPMENT

- 12 ♦ PACIFICO Yokohama (Pacific Convention Plaza Yokohama) (Blocks 18, 22)
- ♦ Queen's Square Yokohama / Yokohama Minato Mirai Hall (Block 24)
- ♦ The Landmark Tower Yokohama / Dock Yard Garden (Block 25)
- ♦ Yokohama Port Museum (Block 23)
- ♦ Cross Gate (Block 26)
- 13 ♦ Yokohama Sakuragi Post Office (Block 27)
- ♦ FUJISOFT Building (Block 27)
- ♦ TOC Minatomirai (Block 28)
- ♦ Kenminkiyosai Plaza Building (Block 29)
- ♦ Bank of Yokohama Head Office Building (Block 30)
- ♦ Nisseki Yokohama Building (Block 30)
- ♦ Minato Mirai 21 Clean Center (Block 31)
- ♦ Keiyu Hospital (Block 32)
- ♦ Kanagawa Prefectural Police Minatomirai Koban (Block 32)
- ♦ Minato Mirai Business Square (Block 33)
- 14 ♦ MM Park Building (Block 33)
- ♦ Minatomirai Center Building (Block 33)
- ♦ MARK IS minatomirai (Block 34)
- ♦ Yokohama Museum of Art (Block 36)
- ♦ Mitsubishi Juko Yokohama Building (Block 37)
- ♦ Yokohama Media Tower (Block 41)
- ♦ Leaf Minatomirai (Block 42)
- ♦ MM Grand Central Tower (Block 42)
- ♦ PRYME GALLERY MINATOMIRAI (Block 43)
- ♦ ARUKAEFU (Block 44)
- 15 ♦ MM21 District Block 45 Project (provisional name) (Block 45)
- ♦ Yokohama Blue Avenue (Block 46)
- ♦ YOKOHAMA i-MARK PLACE (Block 46)
- ♦ Yokohama Nomura Building (provisional name) (Block 46)
- ♦ Yokohama Anpanman Children's Museum & Mall (Block 48)
- ♦ Shincron Head Office / NO.2 Head Office Building (Block 49)
- ♦ GENTO YOKOHAMA (Block 53)
- ♦ Keihin Port Office, Kanto Regional Development Bureau, Ministry of Land, Infrastructure, Transport and Tourism (Block 59)
- ♦ OK Minatomirai Head Office Building (provisional name) (Block 59 (A))
- ♦ MM Block 59 Division B Development Project (provisional name) (Block 59 (B))
- 16 ♦ Yokohama Minatomirai Sports Park (Block 60)
- ♦ Marinos Town (Block 61)
- ♦ FUJII XEROX R&D SQUARE (Block 65)
- ♦ Nissan Motor Co., Ltd., Global Headquarters (Block 66)
- ♦ YOKOHAMA MITSUI BUILDING (Block 67)
- ♦ High-rise urban residential accommodation (Blocks 39, 40, 41, 50)
- 17 ♦ Yokohama Shintoshin Building / Yokohama Sky (Block 68)
- ♦ Yokohama Marine Disaster Prevention Complex (Block 1)
- ♦ Aka-Renga Soko (Block 2)
- ♦ JICA Yokohama (Block 11-1)
- ♦ Cupnoodles Museum (Block 11-2)
- 18 ♦ Audi Minatomirai (Block 11-2)
- ♦ THE GRAND ORIENTAL MINATOMIRAI (Block 11-2)
- ♦ Yokohama Minatomirai Manyo Club (Block 11-3)
- ♦ Yokohama World Porters (Blocks 12, 14)
- ♦ Yokohama International Seamen's Center "Navios Yokohama" (Block 13)
- ♦ Yokohama Cosmo World (Block 15, etc.)
- ♦ ANNIVERSAIRE MINATOMIRAI YOKOHAMA (Block 16)

19 History of Minato Mirai 21

21 Minato Mirai 21 Development Map

Yokohama - A City in the Vanguard of Every Era

Yokohama is Japan's leading international port city. Today, as Yokohama strives to become an even more exciting, independent and cosmopolitan city, it continues to make the most of its over 150-year heritage and a favorable natural setting of hills, rivers and bay.

Yokohama: Leading Japan into the Future

Ever since it opened in 1859, the port of Yokohama has been the setting for personal, cultural and commercial exchange on an international scale. Japan's modernization began right here and Yokohama embraced that challenge in a spirit of openness and enterprise, growing into a major city with a positive, international outlook. Today, this bustling cosmopolitan metropolis has a population of 3.70 million and continues to grow.

One of Japan's top international trading ports, Yokohama is served by a comprehensive transportation network including rapid links to Haneda Airport, which continues to expand and add international flights. The city also boasts quiet residential areas, highly-skilled workers and easy access to the huge markets of the metropolitan area. Not only a perfect base for business, Yokohama is a vibrant, entertaining city that is extremely popular with both domestic and overseas tourists, and a favored site for conventions – in 2013 the city hosted the Fifth Tokyo International Conference on African Development (TICAD V), for example.

In this publication we focus on Minato Mirai 21, a remarkable initiative. Minato Mirai 21 is now firmly established as an outstanding business environment that also offers fascinating glimpses of history and stunning waterfront scenery. Each day, 93,000 people come to work here. Each year, 72 million people come to visit. Minato Mirai 21 is already one of the strongest people magnets in Japan, and yet it's still a work in progress. Future plans include a greater focus on business and commercial entities, accompanied by cultural and artistic activities that make full use of the port's historical and cultural assets. Our aim is to shape an urban environment that will attract creative industries and individuals.

Yokohama Today

■Area	435.21 km ² (February 1, 2014)
■Population	3,702,225 (February 1, 2014)
■Households	1,618,395 (February 1, 2014)
■Gross municipal product	12.6012 trillion yen (2010)
■Per capita income	2,970,000 yen (2010)
■Value of trade through Yokohama Port	10.4444 trillion yen (2012)
■Private business establishments	126,803 (February 1, 2012)
■Private-sector employees	1,428,600 (February 1, 2012)
■Japanese head offices of foreign companies	181 (2013)
■Listed companies (including companies listed on the OTC market)	109 (December 2013)
■Universities and colleges	13 (December 20, 2013)
■Junior colleges	4 (December 20, 2013)

Land Usage

Buildings(offices, commercial, residential, etc.)	87ha
Roads and railways	42ha
Parks and greenery	46ha
Port facilities	11ha
Total	186ha

Effects of the Minato Mirai 21 Project

Employment	93,000 (2013)
Visitors(Central & Shinko Districts)	72 million (2013)
Companies	1,720 (2013)
Municipal tax revenues	¥14.6 billion (Fiscal 2012)

For the city of Yokohama

Effects of investment in construction	¥2.6585 trillion (total)
Effects of business activity	¥1.7556 trillion (annual)
	(Fiscal 2010)

The Minato Mirai 21 Project

Primary Objectives

1. A More Independent Yokohama

Prior to the Minato Mirai 21 project, Yokohama's city center was divided into two areas: the Kannai/Isezakicho District and the Yokohama Station Area District. Minato Mirai 21 District consolidates and integrates the two areas and concentrates companies, shopping centers and cultural facilities in these areas. This creates jobs and bustling recreational areas for citizens, invigorates the local economy and establishes an economic infrastructure that enhances Yokohama's self-sufficiency.

2. A Transformed Role for the Port

The introduction of wide expanses of parkland and green space, such as Rinko Park and Nippon-maru Memorial Park, is creating a waterfront environment where people can relax and enjoy themselves. The port also houses a variety of international conference facilities and central port administration services.

3. A Decentralized Capital Region

The Minato Mirai 21 project is designed to facilitate decentralization of the official, commercial and international conference functions formerly concentrated in Tokyo and to promote more balanced metropolitan development.

Urban Vision

1. A Round-the-Clock Cosmopolitan Cultural City

PACIFICO Yokohama (Pacific Convention Plaza Yokohama) integrates office, cultural and commercial facilities in proximity to urban housing, enabling the area's extensive convention facilities to serve as a center for cross-cultural exchange. A lively, appealing, cosmopolitan city in tune with trends from across the globe is emerging.

2. A 21st Century Information City

Minato Mirai 21 is an information city, buzzing with a constant stream of economic and cultural information. It is attracting a cluster of high-tech, knowledge-intensive, global enterprises' executive HQ and R&D operations, as well as divisions of many government agencies.

3. An Inviting City Offering Ample Waterfront, Green Space and Heritage

Harmony between people and nature is emphasized, highlighting the waterfront's charm and treasuring green spaces. Preserving the Aka-Renga Soko (red brick warehouses) and stone docks evoking Yokohama's historical heritage, Minato Mirai 21 forms a spacious city environment framed by the sea and attractive greenery, and steeped in historical ambience.

Direction for Minato Mirai 21

Minato Mirai 21 is the only area in Japan to be designated under three separate provisions – as a Future City, a Comprehensive Special Zone for International Competitiveness Development, and a Designated Urban Renaissance Urgent Redevelopment Area. The area plans to take full advantage of the benefits deriving from these designations in order to enhance its international competitiveness.

Future City

Submission and implementation of Future City policies responding to environmental issues, aging of society, etc.

The Future City concept describes an advanced model city designed to provide a successful example of a response to environmental issues, an aging society, etc. Since the very beginning of development, Minato Mirai 21 has aimed to become a world-renowned urban environment with energy-saving systematic infrastructure facilities, an environmentally-friendly transportation network, and an urban landscape making full use of its waterfront and greenery advantages.

We will continue to develop, publicize and enhance the attractiveness of the area, implementing initiatives such as the Yokohama Smart City Project and Minato Mirai 2050 Project to create an active, constantly growing urban space.

Keihin Coastal Area Life Innovation Comprehensive Special Zone for International Competitiveness Development

Contribute to life innovation by holding conventions in medical care, biotechnology, etc. and attracting related businesses

Minato Mirai 21, together with the Suehiro and Fukuura areas of Yokohama City and the Tonomachi area of Kawasaki City, has been designated a Comprehensive Special Zone for International Competitiveness Development with the aim of creating an integrated industrial and functional hub that will become an engine of economic growth for Japan.

Minato Mirai 21 has become a center of information transmission via the medical science and bio-technology related exhibitions held at Pacifico Yokohama. For the future, we will continue to contribute to growth in medical and health care related fields by promoting medical science and similar conferences, and attracting related enterprises to locate here.

Designated Urban Renaissance Urgent Redevelopment Area

Promote urban development businesses contributing to strengthening international competitiveness, and develop an infrastructure aimed at improving internal circulation and internal/external access for the district.

The center and bay front areas of Yokohama (approx. 233 hectares) including Minato Mirai 21 (Central District and Yokohama Station East District) have been given the status of a Designated Urban Renaissance Urgent Redevelopment Area to focus urban development efforts here with the aim of strengthening the area's international competitiveness.

The objectives are to achieve a role for the area in driving national economic growth, and by promoting development and area management to create an Asian hub generating new business opportunities.

Planning Principles and Urban Development Approach

The Minato Mirai 21 project has been strategically designed to offer an aesthetically superb cityscape with broad public appeal. Building on the advantages of a waterfront location and the distinctive character of the Central and Shinko Districts, city planning concepts and approaches have been chosen to create desirable urban spaces where citizens can work comfortably, relax and have fun through leisure activities and shopping, and enjoy a secure, prosperous lifestyle.

Central District

Basic Agreement on Town Development

<http://www.minatomirai21.com/city-info/development/rule/agreement.html>

In 1988, the Basic Agreement on Town Development under Minato Mirai 21 was signed between Central District landowners and other parties. The aim was for landowners to take the initiative in formulating rules for urban development, and then to share this basic philosophy in order to achieve balanced development. The agreement covers themes for urban development, vision for land use, and the following matters:

- Water and greenery
- Skyline, streetscapes and vistas
- Shared space (active placement of public art, etc.)
- Activity floors
- Color schemes and outdoor advertising
- Car and bicycle parks

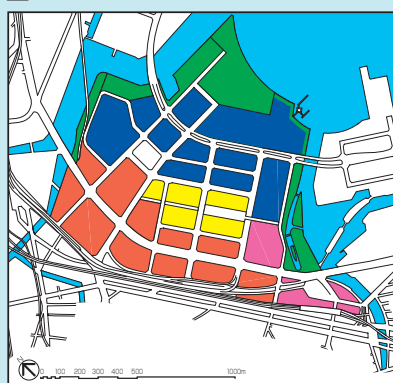

With regard to buildings, it sets standards for minimum site scale, height, pedestrian networks and setback of exterior walls. In addition, it stipulates the urban management systems needed for advanced information services, disaster prevention, environmental support, and for smooth integration with adjoining urban districts.

Central District Plan

<http://www.city.yokohama.lg.jp/toshi/tikukeikaku/c-010.html>

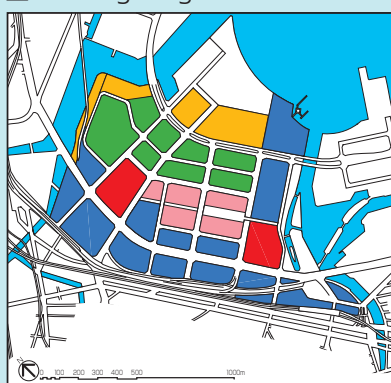

To provide a firm legal status for the self-administered rules and regulations specified in the Basic Agreement on Town Development, the district plan stipulated in the Minato Mirai 21 Central District Plan was officially established in October 1989. This ninth revision to the Plan was made in July, 2012. It provides detailed guidelines for building construction, parks and other facilities, to ensure they match the distinctive character of the district.

Land Use Vision

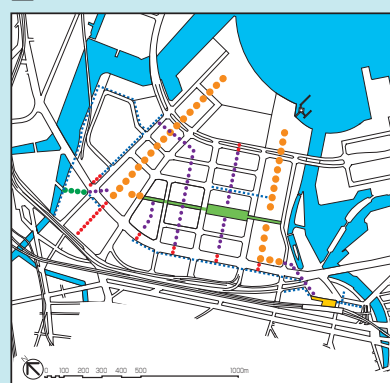

- Business zone
- Waterfront zone
- Commercial zone
- International zone
- Promenade zone

Building Height Limits

- Maximum height: 300 m
- Maximum height: 120 m *Along Grand Mall, 20 m or lower within 10 m of building line
- Maximum height: 100 m
- Maximum height: 180 m
- Maximum height: 60 m

Pedestrian Network

- Width: Over 15 m
- Width: Over 8 m
- Width: Over 4 m
- Width: Over 12 m
- Width: Over 6 m
- Grand Mall
- Plaza

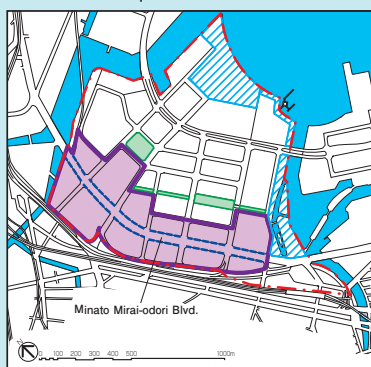

Guidelines for the Urban Landscape of the Central District

<http://www.city.yokohama.lg.jp/toshi/mm21/keikan/>

The aim is to improve the urban landscape in accordance with rules outlined in the Landscape Plan under the Landscape Act and the Urban Landscape Conference Zone in the Ordinance Governing the Creation of an Attractive Urban Landscape in Yokohama City. The basic topic headings are:

- Activity floors
- Pedestrian spaces
- Shared spaces
- Car parks
- Bicycle parks
- Associated facilities, etc.
- Color schemes
- Night-time lights
- Architectural design
- Skyline
- Roadside landscape
- Outdoor advertising
- Promoting activity

Area in question

- District covered by the guidelines
- Minato Mirai-odori Blvd. District
- Wall position restrictions
- Important parks for urban landscape
- Important facilities for harbor landscape

Rules for Minato Mirai-odori Blvd. District

* In sites facing Minato Mirai-odori Boulevard, where structures are 60 m or higher, any parts of these structures taller than 31 m must have the exterior walls set back at least 4 m from the road boundary.

Road boundaries

Shinko District

Redevelopment that Respects History and Scenery

The Shinko District connects Minato Mirai 21's Central District with the Kannai-Yamashita District, whose history stretches back to the earliest days of Yokohama's port. The Shinko District was first developed in the early 20th century to house Japan's first modern port. Landmark structures like the Aka-Renga Soko (red brick warehouses) and stone pavements still attest to this legacy. While carefully preserving its historical monuments and port scenery, the Shinko District is being upgraded with facilities to support its port-related businesses and open spaces to make the most of the tranquil waterfront setting.

Shinko's Unique Heritage

The Shinko District has many distinctive features, from its numerous preserved historical landmarks to its island geography. Therefore, in contrast with the intensive land use and futuristic concept seen in the Central District, the Shinko District is pursuing a more relaxed streetscape that evokes the port and its history with the following themes:

1 Port Scenes and Historical Heritage

The historical legacy of a pioneering modern port combined with the unique feel of an island.

2 Linking Up the Good Life

The fresh, new Minato Mirai 21 Central District connected with the historical Kannai-Yamashita District.

3 From Port to Portal

A portal for people and information to flow through and interact productively.

Guidelines for the Urban Landscape of the Shinko District

<http://www.city.yokohama.lg.jp/kowan/business/keikan>

In order to create an attractive cityscape, a set of guidelines has been established based on the Landscape Plan under the Landscape Act and the Urban Landscape Conference Zone in the Ordinance Governing the Creation of an Attractive Urban Landscape in Yokohama City.

1 Cityscape

- (1) Design streets and buildings to evoke a sense of continuity, open to the sea.
- (2) Create a pleasant, open waterfront and shoreline.

2 History

- (3) Preserve sightlines of the area's historic symbol, the Yokohama Red Brick Warehouses.
- (4) Limit building height and ensure design consistency to respect the historical nature of the area.

3 Island

- (5) Create a sequential scenery, making use of the area's historical and port-like qualities.
- (6) Create an enjoyable urban environment that encourages strolling.
- (7) Design in consideration of the views of the area from surrounding higher areas.

Shinko District Plan

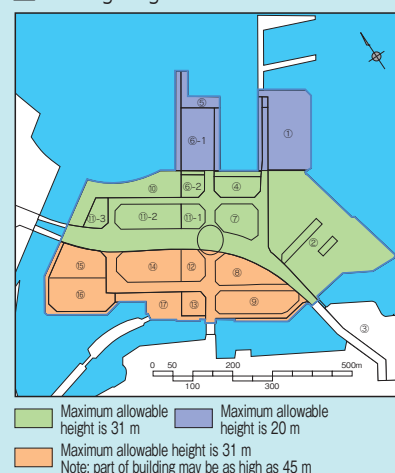

<http://www.city.yokohama.lg.jp/toshi/tikukeikaku/c-036.html>

In April 1997, the Minato Mirai 21 Shinko District Plan was adopted to foster a relaxed cityscape to contrast with the futuristic clusters of towers that make up the Central District.

Land Use Plan

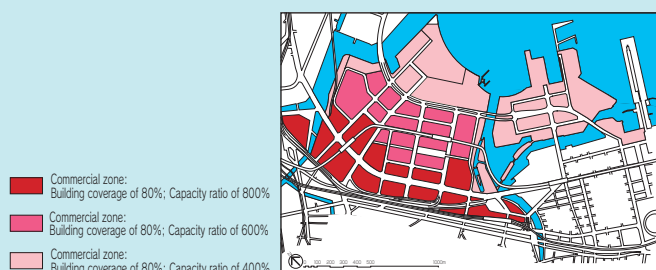

Building Height Limits under District Plan

Central District/Shinko District

Urban Planning (Zoning)

The objective of Minato Mirai 21 is to create a busy, attractive area that also offers employment to local citizens. Under the City Planning Law, the entire area is designated a commercial area.

Green Space Network

Minato Mirai 21 makes use of its waterfront location with numerous green spaces linked by promenades to showcase the special features of the waterside environment. Including Grand Mall Park at the heart of the Central District, a green network covering the whole of Minato Mirai 21 is taking shape.

Parks and open space

Infrastructure for Disaster Preparedness and Urban Convenience

Most of Minato Mirai 21's infrastructure is the result of land reclamation, land readjustment and port facility improvement projects. These have provided disaster-proof infrastructure such as utility tunnels and an earthquake-resistant berth. In addition, various cutting-edge shared utility systems help support the functioning of this 21st-century city.

1983

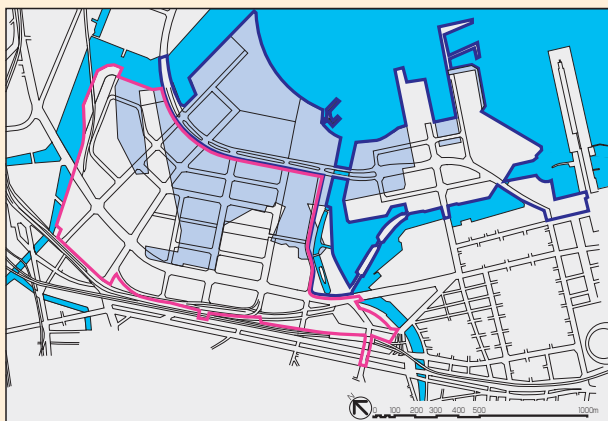

January 2014

Land Reclamation

Forty percent of the land in Minato Mirai 21 is the result of land reclamation work, which was largely completed by March 1998.

Status	Central District: The Central District (59.9 ha) was completed in April 1992 except for a limited area. The Takashima District (5.5 ha) was completed in November 1996.
	Shinko District: The Ichimonji District (7.3 ha) was completed in April 1995. Area between two jetties (1.2 ha) was completed in March 1998.
Schedule	December 1983 to August 2015
Area	73.9 ha
Developer	Municipal government

Zone	Project name	Developer
	Coastal land reclamation	Municipal government
	Land readjustment	Urban Renaissance Agency (independent administrative institution)
	Port facility improvement	Municipal government, national government

Land Readjustment

A land readjustment program was the basis for developing the Minato Mirai 21 Central District. Re-plotting was implemented in June 2006, and the readjustment program was completed by March 2011.

Status	Work has been completed on Status Sakuragicho Station Plaza, Minato Mirai Odori, Routes 1 - 6 and other roads, Grand Mall Park and other park facilities.
Schedule	November 1983 to March 2011 (five-year liquidation period included).
Area	101.8 ha
Developer	Urban Renaissance Agency (independent administrative institution)
History	Nov.1983 Construction Minister authorizes land readjustment for 35.1 ha.
	July 1987 Modification of land readjustment plan authorized (expanded to 63.4 ha).
	Jan.1989 Modification of land readjustment plan (expanded to 74.3 ha).
	Mar.1992 Former Takashima Yard District (21.9ha) incorporated into the area.
	Feb.1995 Modification of land readjustment plan authorized (extended to 2003, including 5-year liquidation period).
	Mar.1999 Modification of land readjustment plan authorized (extended to 2010, including 5-year liquidation period; expanded to 101.6 ha).
	Sep. 2003 Modification of land readjustment plan authorized (expanded to 101.8 ha).
	Dec. 2005 Modification of land readjustment plan authorized.
	June 2006 Land readjustment replotting announced.
	Mar. 2011 Land readjustment completed.

Port Facility Improvement

Port facility improvement efforts, including new green spaces, roads and other port-related facilities, are mostly complete.

Status	The development of Rinko Park, domestic berths and other facilities has been completed except in a few areas.
Start of work	1983
Area	77.9 ha
Developers	Municipal government, Ministry of Land,Infrastructure,Transport and Tourism

Utility Tunnels

The city's circulatory system

Utility tunnels in the ground under the main traffic arteries are used to facilitate Minato Mirai 21's vital shared urban utility services.

Situating these facilities under the roads effectively utilizes underground space, improves disaster-resistance and enhances the appearance of the city. These facilities were progressively installed from 1983 in the Central District as part of the Minato Mirai 21 development, and completed in 2004. Utility tunnels for electric power cables are currently being installed in the Shinko District.

Utility tunnels
 Area developed
 Electric power cable tunnels
 Area currently served
 Area planned for development

Status	The main common utility tunnel runs for approximately 7.0 km under Minato Mirai-odori Boulevard, Kokusai-odori Boulevard, Ichio-dori Avenue, Keyaki-dori Avenue, Sakura-dori Avenue and Sakuragi-Higashi Totsuka Route.
Facilities	Water pipes, communication lines, power lines, gas pipes, waste transport pipes, district heating and cooling ducts, etc.
Developer	Municipal government

District Heating & Cooling System

Ensuring greater energy efficiency

Making urban life even more convenient and secure, Minato Mirai 21 has adopted a district-wide cooling and heating system that centralizes the production, supply and control of processed air. This is more energy efficient and minimizes pollution and the possibility of accidents. The central plant features an STL heat exchange and storage system that draws its power in the middle of the night, when electricity is cheap. A second plant uses a large-scale, high-efficiency turbo refrigeration unit to save energy and reduce CO₂ emissions. As the area served expands, more eco-friendly, higher efficiency heating equipment is being installed.

Status	The central plant and second plant are operating.	
Heating supply	April 1989	
Area served	105 ha (parts authorized by Ministry of Economy, Trade and Industry)*	
Service area capacity	■ Center Plant (Block 31)	■ Plant 2 (Block 24)
	6 floors above ground, 1 basement	Basement floors 4-5
	Floor space: 11,000 m ²	Floor space: 10,000 m ²
	cooling capacity: 285 GJ/h*	cooling capacity: 443 GJ/h*
	boiler capacity: 290 GJ/h*	boiler capacity: 171 GJ/h*
Developer	Minato Mirai 21 District Heating and Cooling Co., Ltd.	

*As of end March, 2014

Earthquake-Resistant Domestic Berth

Facilities to keep the city supplied even after a disaster

The domestic cargo berth (Block 21) handles daily commodities for Yokohama residents. The quay is reinforced to withstand earthquakes so that it can transport supplies in the event of an earthquake or other emergency.

Status	The earthquake-proof wharf has been completed, and the area behind it can be used as a temporary heliport.
Start of work	1985
Capacity	5,000 DWT class (2 berths)
Water depth	7.5 m
Quay length	260 m
Developers	Municipal government, Ministry of Land, Infrastructure, Transport and Tourism

Emergency Underground Water Tanks

Emergency water tanks for drinking water

These emergency underground water tanks are designed to store drinking water for use in the event of a disaster or other emergency. They are connected to water pipes so that water flows through them constantly. Minato Mirai 21's four large-sized water tanks are capable of supplying drinking water for 500,000 people for three days in the event of disaster.

Locations	Yoyo Plaza: 1,000 m ³ tank (completed 1993) Rinko Park: 700 m ³ tank (completed 1994) CUPNOODLES MUSEUM PARK: 1,300 m ³ tank (completed 2000) Takashima-Chuo Park: 1,500 m ³ tank (completed 2005)
Storage	4,500 m ³ (total area)
Developers	Municipal government, Urban Renaissance Agency (independent administrative institution)

Water tank under Takashima-Chuo Park

Ever-Expanding Transit Network

Convenient access to Tokyo, other major cities and international travel is essential to a major city. Minato Mirai 21 offers smooth transit connections to domestic and foreign destinations.

Roads and Railways

Just 20 minutes from Haneda Airport

The Minato Mirai 21 District is easily accessible from other locations. The rail journey from Tokyo Station takes about 30 minutes, and the subway ride from Shin-Yokohama Station on the Tokaido Shinkansen (bullet train) line takes about 15 minutes. The road journey from Haneda Airport takes about 20 minutes via the Metropolitan Expressway, and the road journey from Narita Airport takes about 85 minutes. Access to Minato Mirai 21 is smooth for those arriving on both domestic and foreign flights.

Road and Rail Networks

●Travel Time from Major Terminals

Station	Line	Time
Ikebukuro	Tokyo Metro Fukutoshin Line	11 min (Express)
Shibuya	Tokyo Metro Tokyoto Line	25 min (Limited Express)
Tokyo	JR Tokaido Line	25 min
Shinjuku	JR Yokosuka Line	30 min
Haneda Airport	JR Shonan-Shinjuku Line	31 min (Rapid Train)
Narita Airport	Keikyū Line	25 min (approx.)
For Kansai	JR Narita Express	87 min
Shin-Yokohama	JR Tokaido Shinkansen Line	11 min
Minatomirai	Minatomirai Line	3 min (Limited Express)
Sakuragicho	JR Keihin-Tohoku Line-JR Negishi Line	3 min
Sakuragicho	JR Yokohama Line	3 min
Sakuragicho	Yokohama Municipal Subway	4 min

*The time required when changing trains is not included

■ The Minatomirai Line

The Minatomirai Line runs from Yokohama Station to Motomachi-Chukagai Station. From March 2013, a through service to the Tokyo Metro Fukutoshin Line adds improved access to destinations in southwest Saitama Prefecture via Shibuya, Shinjuku and Ikebukuro.

Overview	Start of work: 1992
	Service started: February 1, 2004
Scope of operations	4.1 km between Yokohama Station and Motomachi-Chukagai Station; all-underground line
Operator	Yokohama Minatomirai Railway Company

Buses and Water Traffic

Buses

Comfortable bus services

Shuttle bus services directly connect Minato Mirai 21 to both Haneda and Narita airports. Within the district, there are four municipal bus systems, as well as the AKAI KUTSU excursion bus which also covers nearby sightseeing spots and costs just 100 yen (50 yen for infants). There is also parking for tourist buses at PACIFICO Yokohama and Yokohama Museum of Art.

AKAI KUTSU

Water Traffic

Convenient access by water

The Minato Mirai 21 District is also accessible from the bay, with scheduled water bus and other services stopping at Minato Mirai Pukari-sanbashi Pier and other piers.

Routes	Yokohama Station East Exit ↔ Minato Mirai Pukari-sanbashi Pier ↔ Pier Aka-Renga ↔ Yamashita Park Pier Unga Park ↔ Nippon-maru Memorial Park ↔ Osanbashi Pier Pier Zou-No-Hana ↔ Nippon-maru Memorial Park ↔ Unga Park
Operators	The Port Service Co., Ltd., Keihin Ferry Boat Service Co., Ltd.

Minato Mirai Pukari-sanbashi Pier

■ Minato Mirai Pukari-sanbashi Pier

Complete	November 1991
Size	Piers: Two floating piers (with 4 berths), 70 m and 50 m long Terminal: A two-story steel-frame building with floor space of 500 m ² , this floating structure rises and falls about 2 m twice daily with the tides

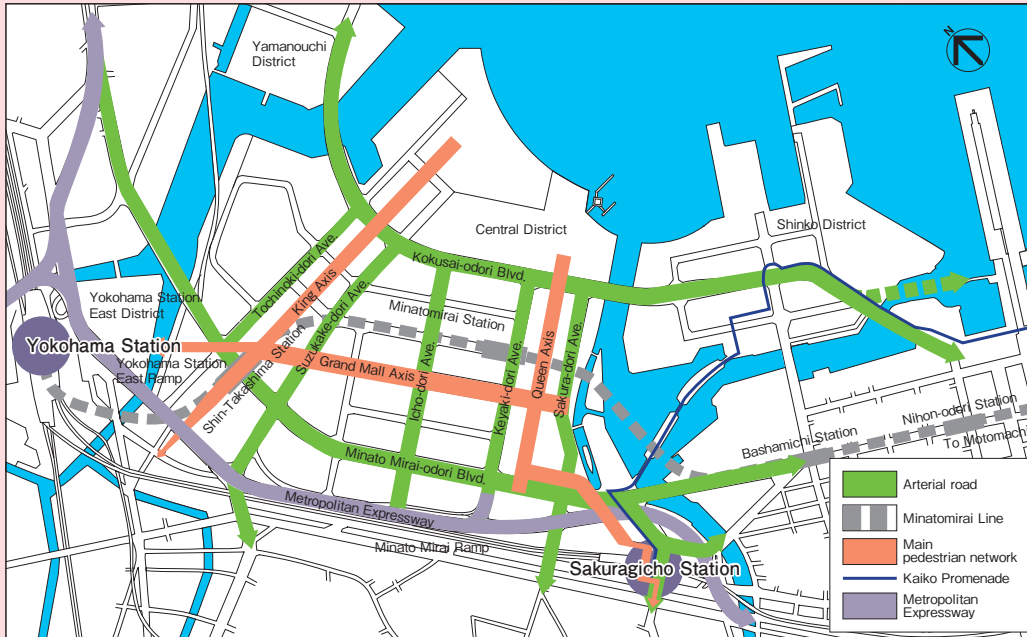

■ Pier Aka-Renga

Complete	March 2004
Size	Pier: 50 m x 8 m Terminal: 13 m x 4 m

■ Pier Zou-No-Hana

Complete	June 2009
Size	Pier: 25 m x 4.5 m

Arterial Roads

Minato Mirai-odori Blvd.

Kokusai-odori Blvd.

Sakura-dori Ave.

A network of roads linking the district to outer areas

Two major arterial roads support the urban functions of Minato Mirai 21. Minato Mirai-odori Boulevard connects the district to Kanagawa Route 1 Yokohane Line. Kokusai-odori Boulevard is a split level (above and below ground) bayside road connecting the Shinko District and Yamanouchi District. Thoroughfares connecting these two major arterial roads are named for the different species e them.

Minato Mirai-odori Boulevard

Full-scale service started	April 2002
Total length	2.7 km
Width	40 m (3 lanes each way)

Kokusai-odori Boulevard

Full-scale service started	March 2013 (Minato Mirai Tunnel opens)
Total length	2.2 km
Width	46m (standard)

Other Arterial Roads

Service started	March 2005 (Tochinoki-dori Avenue opens)
-----------------	---

Pedestrian Network

The network is built around three main axes: the Queen Axis, which links The Landmark Tower Yokohama to PACIFICO Yokohama via the Inner Mall, and the King Axis which links Yokohama Station to Rinko Park. These two axes are connected by the intersecting Grand Mall Axis. The open plaza in front of Sakuragicho Station forms the main entrance point to the district, and also functions as an event space. The plaza is linked to the Queen Axis by a covered pedestrian walkway powered by rooftop solar panels. The Hamamirai Walk from Yokohama Station links via the Minatomirai Pedestrian Bridge to the King Axis and Grand Mall Axis.

Sakuragicho Station Plaza

Service started	March 2002
Area	17,200 m ²

Moving Walkway

Service started	March 1989
Size	Length: 230 m, width: 12m

Hamamirai Walk

Service started	July 2009

Takashima 2-chome Pedestrian Bridge

Service started	August 2008
Size	Length: 80 m, width: 6 m

Urban Development Embracing Water and Greenery

The Minato Mirai 21 District is being developed into an area that will invigorate the city and offer many opportunities for relaxation amidst its water and greenery. In addition to its cultural institutions, historical landmarks and amusement facilities, the amount of parks and green spaces continues to expand.

Aka-Renga Park (Block 2)

The green area of the historical Aka-Renga Park includes the renovated Aka-Renga Soko warehouses, the remains of the old Yokohama Customs Office, and the platform of the former Yokohama Minato Station.

Start of work	1989
Open	April 2002
Area	5.5 ha
Facilities	Aka-Renga Soko, the preserved platform of the former Yokohama Minato Station, ruins of the old Yokohama Customs Office, lawn space, parking, etc.
Developer	Municipal government

Zou-no-hana Park (Block 3)

Created to mark the 150th anniversary of the opening of the Port, this green space offers fine views over the waterfront and historic features such as the restored 19th century breakwaters.

Start of work	2006
Open	June 2009
Area	3.8 ha
Facilities	Rest houses (Zou-No-Hana Terrace), lawn space, terraced embankments, breakwaters, etc.
Developer	Municipal government

Shinko Central Plaza (Block 8)

A large green space linking Aka-Renga Park and Kisha-michi Promenade, the plaza provides extensive open views.

Start of work	2001
Open	June 2005
Area	1.1 ha
Facilities	Open space, etc.
Developer	Municipal government

CUPNOODLES MUSEUM PARK (Block 10)

CUPNOODLES MUSEUM PARK forms a pair with Rinko Park, with grassy spaces and embankments from which to enjoy the outlook over the water.

Start of work	1998
Open	April 2001
Area	2 ha
Facilities	Lawn space, terraced embankments, emergency underground water tanks, etc.
Developer	Municipal government

Kishamichi Promenade / Unga Park / Promenade (Block 17, etc.)

The promenade and park were created to take advantage of historical assets, such as old railway tracks.

Minato Mirai 21 Development Map

Business Support

Support System under Yokohama City Regulations for Enterprise Zone Promotion

•Support for Office Construction and Acquisition

Applicable to: Acquisition of fixed assets (land, buildings, amortized assets) for the purpose of establishing one's own office or plant in a designated area.

Tax Relief: Fixed assets tax and town planning tax on applicable offices will be levied at 1/2 rate for 5 years.

Subsidies: Subsidies will be provided calculated on the amount of invested capital (acquisition costs etc. for land, buildings, equipment)

[Subsidy Rate] Headquarters or research facilities: 10% of capital investment (15% for global corporations meeting certain conditions)

Factories: 8% of capital investment

Offices: 6% of capital investment

[Maximum Subsidy] Buildings & equipment: ¥1,000,000,000 (¥2,000,000,000 for global corporations meeting certain conditions)

Land: ¥1,000,000,000 (when acquired together with buildings)

●Corporate Overview

Name; Yokohama Minato Mirai 21 Corporation Location; 3FL. Queen Mall, Queen's Square Yokohama, 2-3-5 Minato Mirai, Nishi-ku, Yokohama 220-0012, Japan
Established; 23 February 2009
Started operations; 1 April 2009 Tel +81 45-682-0021 Fax +81 45-682-4400
URL; <http://www.minatomirai21.com/>

●Mission

To implement integrated area management on behalf of the multiple bodies involved in the Minato Mirai 21 development, in order to enhance the appeal of the district, to preserve and improve the quality of the urban environment, and to contribute to the growth of Yokohama as a vibrant international city of culture.

●Major areas of activity

・Urban development and coordination

Discussing the direction of overall urban development for the Minato Mirai 21 district, designing changeover to joint ownership, and studying measures, etc., in order to promote urban development in accordance with the changing times.

・Environmental measures

Developing activities over a wide range, from the physical infrastructure to the human aspects, aimed at reducing the burden on the global environment through the business and commercial activities, etc., of Minato Mirai 21.

・Culture and promotional activities

Disseminating information both inside and outside the district regarding conditions and activities in Minato Mirai 21. Promoting activities designed to preserve and improve urban amenities in order to form a better city.

Minato Mirai 21 Area Management Charter

Basic Concepts

| Encourage a rich, varied urban culture

The mutual influence of diverse activities will nurture a rich urban culture unique to Minato Mirai 21, a place we hope will be enjoyed by residents and visitors alike.

| Create a safe urban environment with a high quality of life

Aim to create a handsome cityscape worthy of world respect, and an urban environment that all can enjoy in safety.

| Cultivate, establish and promote the Minato Mirai 21 brand

Create and promote a brand that will inspire respect and affection among all the diverse people connected to the district.
